

## RoboCleaner

# RC3000 \*EU

The RC 3000 Robo Cleaner is an autonomous cleaning system that sweeps and vacuums even when you are not at home. The RC 3000 can be used on all normal household floor coverings, such as carpets, linoleum, parquet, tiles, etc. The flexible sweeping mechanism adapts automatically to different floor coverings and does not need to be programmed. Operation couldn't be simpler: Plug in and switch on and the Robo Cleaner cleans for as long as you want. Thanks to its compact size and low profile (280 x 105 mm/2.0 kg), the robot can travel under furniture, i.e. tables, beds, sofas, cupboards, and clean right into almost all corners.

### Standard accessory:

- Dirt sensor
- Max. distance from charging station  
20m
- Four fall sensors
- Infrared navigation beam
- Contact sensors
- Dirt detection

**Order no.** 1.269-101  
**EAN-code** 4002667384598

**Pallet size** 9 units

## Technical Data

Performance	15	m <sup>2</sup> /h
Running time per battery charge	20-60	min.
Max. motor rating	600	W
Battery recharge time	10-20	min.
Dust container RoboCleaner	0.2	l
Dust container charging station	2	l
Noise level in quiet mode	54	dB/A
Weight RoboCleaner	2.0	kg
Weight charging station	5.8	kg
Dimensions RoboCleaner (D x H)	280 x 105	mm
Dimensions charging station (L x W x H)	500 x 250 x 230	mm
