

Garden Pumps

GP 45 *EU II

Regular and targeted watering is necessary to make your garden blossom. That is now child's play with Kärcher's new garden pumps and submersible pressure pumps. These high-performance pumps have enough pressure to run several sprinklers simultaneously. Water pressure is maintained over long distances so that you can make practical use of water from springs, wells, ponds or rain barrels. Installation and operation are really simple.

Approved Kärcher quality. Robust and powerful. Convenient foot switch. Higher comfort. Switching on/off without stooping. Pre-filter. Serially enclosed. Protects the pump from contaminations. Increased reliability and durability. Easy priming because sight glass. Higher comfort through ventilation with larger filler neck and sight glass for filling level. Ergonomic handle. The ergonomic handle not only guarantees a comfortable transport, but also makes it possible to lift the pump from all sides. Optimised union. Enables the simplest connection esp. with large diameter hoses. Additionally it minimises the danger of damage to the thread.

Standard accessories:

- Ergonomic handle
- Optimised filler neck
- Foot operated switch
- Pre-filter
- See-through window filling level
- Large filler nozzle for ventilation

Order no. 1.645-216.0

EAN-code 4039784223417

Pallet size 18 units

Technical Data

Motor capacity	850	Watt
Max. output quantity	3.800	l/h
Max. water bead / pressure	43 / 4.3	m/bar
Max. immersion depth	9	m
Connecting thread	G1	
Pump rotor disc	Jet	
Power supply	1 / 230 / 50	~ / V / Hz
Dimensions (L x W x H)	486 x 233 x 267	mm
Weight	8.3	kg
