

KM 70/20 C

Compact and convenient Push Sweeper for indoor and outdoor use.

The KM 70/20 C is an entry level pedestrian controlled push sweeper with side broom that sweeps 7 x faster than a conventional broom. The main feature of this sweeper is the adjustable roller brush that you can change the height of in seconds to suit the surface being cleaned. Ideal for cleaning paths, halls and warehouses quickly and efficiently.

- Dirt picked up by the roller brush is swept directly into the waste container by the dust pan and brush cleaning principle.
- A minimum amount of physical effort is required as the sweeper is easy to manoeuvre.
- The main roller brush can be raised or lowered to one of 6 settings to suit the surface being swept.
- The contact pressure of the retractable side brush can be adjusted to suit your needs.
- An in-built fine dust filter retains the dust created during sweeping to keep the air cleaner.
- The ergonomically shaped 20 litre container aids easy handling and emptying.
- The push handle can be set to three different positions to suit the height and reach of the user.
- The push handle folds down completely reducing storage space needed.
- The main roller brush and side brush are driven by the two rear wheels.
