

Submersible Clear Water Pumps

SCP 6000 *EU II

Help is needed quickly when there has been a spill in the laundry room or the basement has been flooded by a storm, or when it is time to spring-clean swimming pools or ponds. These situations are the domain of Kärcher's powerful, submersible draining pumps which transfer the water to another location in no time at all.

Approved Kärcher quality The compact entry class submersible pump for a quick evacuation or transfer of clear and slightly contaminated water. Robust and powerful. Suction already starts at a low water level The pump already starts automatically at a level of ≥ 1 cm. Extension of application areas, increase of handling comfort. Comfortable carrying handle The ergonomic rail handle guarantees not only comfortable transport, but also makes it possible to lift the pump from all sides. Additionally it facilitates the attachment of a rope for lowering the pump. Optimised level switch. Increases the switching accuracy in comparison to the competitors. Optimised union. Enables the simplest connection esp. with large diameter hoses. Additionally it minimises the danger of damages to the thread. Incl. adapter with G1 inch inner thread.

Standard accessories:

- Rail handle
- Optimised filler neck
- Suction already starts at low water level
- Free sensor positioning

Order no. 1.645-165.0

EAN-code 4039784223387

Pallet size 60 units

Technical Data

Motor capacity	250	Watt
Max. output quantity	6.000	l/h
Max. water head / pressure	5 / 0.5	m/bar
Max. particle size	5	mm
Max. immersion depth	9	m
Connecting thread	G1	
Power supply	1 / 230 / 50	~ / V / Hz
Dimensions (L x W x H)	175 x 190 x 260	mm
Weight	4.0	kg
