

Battery driven units

EB 30/1 Professional

Overview

Kärcher has launched on the market the first battery-powered electric broom for commercial users, the EB 30/1.

The professional version includes a second nickel cadmium battery and a quick battery charger instead the standard battery charger.

With its roller brush and dirt container, this newly developed model is broom and dustpan in one. It can be used to pick up dirt from hard floors and carpets quickly, quietly (56 dB(A)) and reliably during business hours.

Order no. 1.545-108.0

Standard accessories

Battery, Brush roller standard, Quick charger, BC1/1.8, Safety class III, telescopic broomstick with handle, Changeable battery 7.2V/1.5Ah

Description

With the second battery the operating time will be doubled.

The serial battery quick charger reduce the charging time from 12 hours (standard charger) to 50 minutes.

Battery driven units

EB 30/1 Professional

Batteries can be swapped to permit uninterrupted working.

The EB 30/1 has a foot-operated on/off switch. At 90 mm high, the unit is flat enough to reach beneath radiators and furniture with low ground clearance.

It picks up loose dirt to within just 2 mm of its edges.

The telescopic broomstick has a push handle and can be adjusted to suit the operator's height, while a universal joint enables it to move in all directions. When not in use, it locks into the vertical position.

The electric broom can run for roughly 30 minutes on carpets and 45 minutes on hard floors before the powerful nickel cadmium battery requires recharging or changing.

No tools are required to change batteries or remove the roller brush. Any hairs that get wound round the brush can be removed by running a knife along a specially designed groove to sever them.

Application

It can be used to pick up dirt from hard floors and carpets quickly, quietly (56 dB(A) and reliably during business hours.

The extended battery running time makes this robust electric broom a very useful aide for, among others, office cleaners, hotels, restaurants, shops and end consumers.

Ideal for Spot cleaning or small area cleaning.

Rechargeable batteries + chargers

High speed battery charger BC 4/ 3.0

High speed battery charger BC 4/ 3.0 EU

Order no. 6.654-204.0

Battery charger BC 1/ 0,1 Standard EU

Standard battery charger for rechargeable battery of electric broom EB 30/1 EU Standard version.

Standard equipment only for basic/ standard version.

Approx. charging time : 12 h

Order no. 6.646-649.0
