

ULTIMAXX 1900 Economy

Ultimate flexibility, maximum productivity

Built to last in our cutting-edge Swiss laboratory - Highest quality components making for a long-life span and the best TCO.

The all new TASKI ULTIMAXX 1900 walk-behind economy scrubber range offers excellent agility in its class. Combined with the high quality components used in the new TASKI ULTIMAXX achieving new levels of robustness. This leads to excellent uptime and a longer life span of the machine, creating the best total cost of ownership.

The TASKI ULTIMAXX 1900 scrubbers empower every organization to increase efficiency, costs and cleaning results with measurable productivity and granular insight.

ULTIMAXX 1900 brings you:

Unparalleled hygiene and efficiency

Excellent water pick up with patented squeegee

Highest air quality via HEPA filtration

Predictive and pro-active maintenance

Ultimate power, ultra-silent in operation

Unparalleled hygiene and efficiency A combination of cleaning excellence and the quickest drying result

With the new ULTIMAXX range, the high standard rises again with new airflow and handling optimizations. Of course, the three-castor squeegee design still offers no-tool-maintenance and no pitch adjustments. Combined with high quality materials and protective coatings, the TASKI squeegee guarantees long-term consistent cleaning results.

Built to last in our cutting-edge Swiss laboratory Ultimate power, silent operation

The TASKI ULTIMAXX range includes, as standard, patented TASKI whisper technology. This unique airflow system guarantees optimized suction and immediate noise absorption. With our unique cutting-edge technology the operation is extremely quiet with 63db(A) and with the eco mode it can reach as low as 60db(A). It is also available with HEPA filtration.

Empowering safe operation Smart technology to ensure save and quick start

Security and efficiency combine with TASKI IntelliKey technology. Authorized users can log in and immediately access the programs relevant to them. Additionally the new digital key adds a higher safety including automatic battery disconnect when charging.

Ultimate resource efficiency The most efficient chemical resource management with IntelliDose+.

The IntelliDose+ system calculates and delivers the optimal amount of chemicals for any task or floor type, ensuring superior cleaning while controlling and reducing chemical consumption. The new design allows to use super concentrates and standard concentrates. Our unique approach maximizes effectiveness and simplifies your operation taking your cleaning to a new level.
