Data sheet HDS 5/13 U

HDS 5/13 U

Customer Benefits

- Extremely mobile, manoeuvrable machine for alternating site of operation
- Large wheels and „Upright“-Design for easy transport over stairs/ stages etc.
- Space saving stowable in vehicles
- Integrated accessory storage for whole spraying device
- Ergonomic push/ pull handle
- Well-arranged, central control panel
- Big water fine mesh filter protects high pressure pump from dirt particles

Product Idea:

Price attractive hot water high pressure cleaner in the entry class for commercial target groups like craftsmen (sanitary, lock smith, painter, heating installer), small garages, small metal working companies etc.

Order No.: HDS 5/13 U *EU 1.064-010

Standard Accessories

- High-pressure hose 10 m, ID 6, 250 bar, AVS-connection

- Extended trigger gun

- Stainless steel spray lance, 550 mm

- Triple nozzle

Market Launch:

KW 36/2010

Technical Data

- | | |
|---|---------------------|
| • Power supply | 230 V / 1 ~ / 50 Hz |
| • Water flow rate | 500 l/h |
| • Pressure | 125 bar / 12,5 MPa |
| • Consumption fuel oil | 3,1 kg/h |
| • Connected load | 2,6 kW |
| • Max. temperature | 80 °C |
| • Weight (without accessories) | 70 kg |
| • Bio-diesel, can be used without restriction from 10°C upwards | |
