Designed in The Netherlands, Europe. Made in India

- Adaptive 4-stage charge curve for fully automatic charging
- One battery output
- Input voltage range: 180 – 265 VAC
- 94% efficiency
- 0,5 Watt no load power consumption
- Extremely reliable due to low thermal stress
- Starts charging even when battery discharged to 0V
- Suitable for lead acid and lithium iron phosphate batteries
- Internal temperature compensation
- DC terminals: 10 mm² / AWG6
- AC cord length: 1,5 m
