

Submersible Dirty Water Pumps

SDP 9500 *EU II

Help is needed quickly when there has been a spill in the laundry room or the basement has been flooded by a storm, or when it is time to spring-clean swimming pools or ponds. These situations are the domain of Kärcher's powerful, submersible draining pumps which transfer the water to another location in no time at all.

Approved Kärcher quality. Robust and powerful. Push-button priming. Easier handling/time saving because of direct influence possibility. Comfortable carrying handle. Comfortable transport and handling. The ergonomic handle makes it possible to lift the pump from all sides. Optimised level switch. Increases the switching accuracy in comparison to the competitors. Optimised union. Enables the simplest connection esp. with large diameter hoses. Additionally it minimises the danger of damages to the thread. Incl. adapter with G1 inch inner thread. Suitable for 3/4 and 1 inch hoses.

Standard accessories:

- Rail handle
- Optimised filler neck
- Ventilation by pressing button
- Free sensor positioning

Order no. 1.645-116.0

EAN-code 4039784223653

Pallet size 54 units

Technical Data

Motor capacity	450	Watt
Max. output quantity	9.500	l/h
Max. water bead / pressure	6 / 0.6	m/bar
Max. particle size	20	mm
Max. immersion depth	9	m
Connecting thread	G1	
Power supply	1 / 230 / 50	~ / V / Hz
Dimensions (L x W x H)	200 x 210 x 315	mm
Weight	4.3	kg
