Cold water high-pressure cleaner

KÄRCHER HD 605 *EU

This cold-water pressure washer with alternating current drive unit is the ideal entry-level model for mobile use.

The HD 605 boasts impressive mobility and compactness. The unit's generous stowage facilities ensure that accessories are always ready to hand and put away safely.

It boasts familiar KÄRCHER features such as a full shock-resistant plastic covering that protects the high-pressure pump from damage and soiling.

The cleaner comes with a three-way nozzle that enables the water jet to be adjusted quickly and easily. You can choose between a high-pressure pencil jet, a high-pressure fan jet (25°) and a low-pressure fan jet. The low-pressure fan jet (40°) is used for dispensing cleaning agent. The cleaning agent metering valve enables cleaning agent to be mixed continuously with the high-pressure jet.

The three-piston axial pump with stainless steel pistons and a brass cylinder head guarantees a long service life and low susceptibility to faults. The pressure switch control switches the motor off automatically as soon as the handgun trigger is released, to permit energy-efficient working.

Anti-twist system (AVS)
Triple nozzle (0°/25°/40°)

Triple nozzle/Power nozzle
Trigger gun verl. HD-Pistole
High-pressure hose 10 m

Spray lance 400 mm

Order no. 1.118-850.0
EAN-code 4039784406148

Dimensions (L x W x H)	729 x 312 x 388 mm
Power cable	-
Connected load	2,2
Operating pressure	110/11 /MPa
Water flow rate	500 l/h
Weight	15 kg
Max. pressure	130/13 /MPa
Detergent tank	-
Power supply	1/230/50 Ph /V /Hz
Max. water feed temperature	max. 60 °C
