

## CPE Sales Information

Dear Ladies, Dear Sirs,

we are pleased to inform you that the vacuum cleaners **VC 6100**, **VC 6200** and **VC 6300** **have been assigned with the label "Suitable for allergy sufferers"** by the well known German institute IUG (Institute for environment and health) after view, testing and valuation.

The recommendation "suitable for allergy sufferers" of the institute IUG has been awarded because of the special filter system (fleece dust bag, HEPA 12 filter) and the resulting excellent dust retention.

Even the smallest allergy-causing particles are trapped – the exhaust air is cleaner than the room air.

This label underlines the outstanding features of the new vacuum cleaner generation especially for allergy sufferers!

Therefore you will shortly find the above-mentioned label placed on the packaging and in all communication documents.

If you have any questions, we'll be happy to support you.

We wish you continuous success in marketing our products.
